

## **The State of Oregon wants to give your child \$150 for College Tuition.**

A NEW refundable tax credit of up to \$150 (\$300 if married filing jointly) is available for Oregonians who make contributions to an Oregon 529 College Savings account. To qualify for the credit, you must make contributions during tax years beginning on or after January 1st. Contributions may be made up until the date the return is filed or the regular due date without extension, whichever is earlier.

An Oregon 529 College Savings Network account is a state-sponsored plan, that qualifies for special tax status under (IRC Section 529). Account holders can save money for qualified college expenses for any designated beneficiary.

The income (AGI) determines the percentage of the contributions made during the year. If your AGI is at least \$0 and not more than \$30,000, the credit is 100% of your contribution with a maximum of \$150 (\$300 if married filing jointly).

So if your 2 year old child (or any age), with \$0 income, contributes \$150 to a Oregon 529 College Savings account, and files an Oregon 2021 income tax return, your child can claim a refund of \$150.

And repeat again, in the following years.

There is a penalty for withdrawals that are not for qualified college expenses.

**NEW. Starting in 2024, unused 529 savings may be rolled-over into a Roth IRA. Certain requirements must be met.**
