## MEDICAID PENDING UPDATE

In keeping clients abreast of a resolution for Medicaid pending cases, we have been working closely with KAHCF, Leading Age, and representatives from Department for Medicaid Services. We believe a plan is being set into motion as a result of these collaborative efforts. Discussion includes taking teams to the field, long term care designated e-mail, and online asset verification.

While we expect more details in the immediate future, we do know facilities will need to gather specific information regarding pending Medicaid cases. That information will, at a minimum, need to include Name, Social Security Number, Date of Birth, Facility, and specific notes regarding facts associated with each case.

We urge Hargis & Associate LLC represented providers to assemble this spreadsheet immediately. We anticipate a large statewide influx, and the preparation in advance should help ensure a place in the beginning as opposed to the end of the line.

We will release details as they are made available. We appreciate this opportunity to serve you.
