### **Employee/Self-Employed Tax Tips**

- A) **First-Year Expensing Election.** Up to \$500,000 of qualifying business assets purchased and placed in service in 2013 may be expensed currently. (Separate limits apply to business vehicles.)
- B) **Business Use of Home Deduction.** If an area of the home is used regularly and exclusively for business, a deduction for a portion of mortgage interest, taxes, insurance, other operating costs and depreciation may be allowed. Special rules apply for inventory storage and daycare. Ask for details.
- C) Per Diem Meal Rates. In lieu of using actual expenses incurred for meals and incidental expenses while travelling, self-employed individuals and employees may deduct IRS-approved per diem amounts. The amounts depend on location. Provide detailed list of dates and locations of business travel.
- D) **Self-Employed Health Insurance Deduction.** Premiums paid are for the self-employed individual, spouse, dependents and children under age 27. This rule is applied separately for policies that include long-term care.
- E) **Self-Employed Retirement Plans.** Many retirement plans (funded with pre-tax dollars) are available to self-employed business owners. The deadlines for establishing and contributing to a retirement plan vary. If you have employees, matching contributions may be required.
- F) **Small Employer Health Insurance Credit.** A credit is available to qualified small employers that pay health insurance premiums for employees. Premiums paid for the business owner and his family members don't qualify. Ask us for details.

#### **STEP 10** Vehicle Expense

- Commuting between your home and regular work location is not deductible.
- · Commuting expenses for going between your home and a temporary work location outside the metropolitan area where you live and normally work are deductible. Travel expenses between your home and a temporary work location within your metropolitan area are not deductible unless either of the following tests are met:
  - 1) You have one or more regular work locations away from your home or

ness use. Daily records provide the best protection in case of an audit.

- 2) Your home is your principal place of business.
- A work location is considered temporary if employment is expected to last and actually does last for one year or less.
- There are two methods to determine the deduction for vehicles used for business: (1) actual expenses or (2) standard mileage rate (for 2013, 56½¢ per mile).
- For each vehicle used for business, complete lines 1–6. If you know that you use standard mileage allowance, ignore lines 7–13. If you purchased a vehicle this year and do not use standard mileage allowance, provide a copy of the sales invoice.

#### Tax Tips

- 1) Payments that meet specific requirements are treated as alimony for tax, regardless of how they are described in a divorce decree. One of the requirements is that the payments end upon the recipient's death. So, payments for maintenance or spousal support may be considered alimony for tax. Ask us for details.
- IRA contributions are limited to the lesser of \$5,500 (\$6,500 if age 50 or older at year-end) or compensation. If you (and your spouse) are not covered by an employer retirement plan, traditional IRA contributions (up to the limit) are fully deductible. If you or your spouse are covered by an employer retirement plan, the deduction is phased out at higher income levels. Roth IRA contributions are not deductible. Also, regardless of whether you are covered by an employer retirement plan, the Roth IRA contribution limit is phased out at certain income levels. If only one spouse has compensation, a spousal IRA can be set up for the nonworking spouse. Each spouse (working and nonworking) can contribute up to \$5,500 (\$6,500 if age 50 or older) provided the working spouse's compensation is at least equal to the IRA contribu-
- 3) Individuals covered only by a high deductible health plan (deductible of at least \$1,250 for individual coverage and \$2,500 for family coverage) can make deductible (subject to limits) HSA contributions.
- 4) Grade K-12 teachers can deduct amounts paid for books, supplies (other than nonathletic supplies for health and PE courses), computer software and other equipment and materials.
- 5) If married, the child and dependent care credit is generally available only if both spouses have earned income. Exceptions apply if spouse is full-time student or disabled.
- 6) Cancellation of debt (COD) generally results in taxable income. However, exceptions are available for bankrupt and insolvent taxpayers as well as for cancellations or reductions of student loans, farm-related loans, mortgages on principal residences and loans related to business real property.
- 7) A person who files a joint return (other than a return filed solely to claim a refund) cannot be claimed as a dependent. Also, special rules apply to children of divorced parents.
- 8) To be tax free, IRA and qualified plan distributions must be rolled over to another traditional IRA or qualified plan within 60 days. Also, for IRAs, there is a one-year waiting period between tax-free rollovers.
- 9) IRA (but not qualified plan) withdrawals before age 59½ are not subject to the 10% penalty if the funds are used for (a) medical expenses that are deductible as an itemized deduction (b) certain higher educational expenses (c) a first-time home purchase for distributions up to \$10,000 or (d) medical insurance by individuals who are unemployed for at least 12 weeks. Other exceptions may apply to IRA and qualified plan withdrawals.
- 10) Material participation in a trade or business generally means the taxpayer spends more than 500 hours participating in the activity during the year. However, the test can also be met in other situations, such as when the taxpayer is the only one who substantially participates in the activity or spends more than 100 hours participating and no one else spends more time.
- 11) If "allocated tips" are listed on year-end Form W-2, the amount will be subject to both Social Security and income tax unless records (tip log) verify that a lesser amount was actually received.

- 12) Improvement costs may reduce taxable gain upon sale of property. Keep records of improvement costs made to all real property at least four years after the property is sold.
- 13) If stock or mutual fund dividends are automatically reinvested instead of received in cash, these reinvestments increase cost basis, and reduce gain or increase loss upon sale.
- 14) Benefits such as a credit, deduction or income exclusion for interest on certain U.S. savings bonds issued after 1989 may be available for certain education expenses. Benefits may be phased out at certain income levels. List the following expenses: (a) tuition and required fees, (b) books, supplies and equipment required for attendance, (c) room and board (if at least half-time attendance) and (d) student loan interest.
- 15) Qualified long-term care insurance premiums are deductible subject to age and annual dollar limits.
- 16) Charitable contributions of \$250 or more in any one day to any one organization must have written acknowledgment from the organization. The acknowledgment must state whether or not any goods or services were received in exchange for the donation.
- 17) When making contributions of used furniture, appliances and clothing to nonprofit organizations, attach a record of the items donated to the receipt for proof of this deductible contribution. Contributions must be in good or better condition to be deductible.
- 18) Expenses incurred for education for improving your skills for your present job or maintaining your job may be deducted. Seminars, tuition, books and some travel expenses can be deducted.
- 19) Job-seeking costs in the same field of employment are deductible. Successful job placement is not necessary.
- 20) Part of a legal fee incurred in a divorce or an estate plan may be deductible if it is for advice on the tax consequences. Have your attorney clearly indicate how much of the fee is for tax advice.
- 21) Expenses incurred for attending conventions, seminars or other meetings that give investment advice to taxpayers are not deductible.
- 22) Generally, a net loss due to a casualty (such as flood, fire, theft, etc.) is deductible to the extent it exceeds 10% of your AGI. Special rules apply to federally declared disasters. Ask us for details.
- 23) A home can be a house, condominium, cooperative, mobile home, boat or similar property. It must provide basic living accommodations including sleeping space, toilet, and cooking facilities.
- 24) Loan origination fees (points) paid on a loan to buy or build a principal residence are generally deductible as interest in the year paid. Points paid on refinancing an existing mortgage or on a loan to purchase or improve a second home must be deducted (amortized) over the life of the loan. Exception: If part of the proceeds were used to improve your main home, points related to the improvements may be deducted in the year paid.
- 25) You can exclude up to \$250,000 (\$500,000 if married and filing jointly or certain surviving spouses) of the gain on a sale of a principal residence if you owned and occupied the residence for two out of the five years before the date of sale. If the home was used other than as your principal residence any time after 2008, some of the gain may be taxable.
- 26) Keep receipts supporting tax deductions at least four years.
